

Sótano del Malpaís

Municipio de Gómez Farías
Tamaulipas, México

Explored by Richard O. Albert,
February 7-8, 1972
John and Marjorie Hopkins, surface support
Diagrammatic sketch map from Albert's
notes by William R. Elliott, 2017

Entrance elevation ~300m msl
Depth about 80 m, 220 m msl
~200 m explored length

The cave is in a karst malpaís (badland)
that is dangerous to traverse
